Conducted inbound and outbound service calls maintaining quality call script standards.

Ancira　　　　　10/2012 - 06/2014
Receptionist
Answered all incoming calls, tended to walk-in customers, and efficiently maintained organization of sales records.

DEVELOPMENT PROJECTS

Full Stack Blog　　　　　6/20 - Current
Developing a full-stack Java based application with a MySql database, and Bootstrap framework design. Guest users can view posts or register in order to create a profile, submit posts, or view other users. This project is being built utilizing a collaborative group environment, and is deployed through AWS integration.

DnD Playground　　　02/2020 - Current
A full stack application utilizing Spring Boot and Java. This application offers a dice rolling feature as well as a Non Player Character(NPC) generator. Functionality for a DnD search can also be found through usage of the Open5e API. Simple Javascript logic and styling come together for a smooth user interaction throughout this interface.

PantryChef　　　　　　　　04/2020
A full-stack application that helps users find cooking recipes through a search input or category from an API. The site's main feature allows you to input your current pantry/fridge items and find a recipe based on those ingredients. Users can upload their own recipes as well, with full CRUD functionality.

Weather App　　　　　　　01/2020
Created a weather application using JQuery and custom CSS. This application uses DarkSky API in conjunction with Mapbox API, giving the user the ability to view forecasts through the map pin or search feature. Appearance showcases modern design aspects that update accordingly with current weather.

Coffee Project　　　　　　12/2019
Built a JavaScript and CSS user interface to search or add coffees by name and roast. CSS grid styling provides dynamic accessibility through all media viewports.

EDUCATION

Codeup　　　　　　　　　　04/2020
Certificate of Completion
Fully-immersive, project-based, and intensive 20 week full stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.
